that excites

2015 LEAF®

WELCOME TO THE 2015 NISSAN LEAF® DIGITAL BROCHURE

Full of images, feature stories, and all the specification and trim level information you need to help select your Nissan LEAF®.

Information Provided by:
DEALER
E-PROCESS

START YOUR DAY WITH ALL ENERGY, NO EXHAUST.

How much money would you save if you never had to stop for gas again? And how much time would you save, zipping along in the carpool lane? This is innovation that rewards, because Nissan LEAF[®] is the 100% electric car that works for you. It even nabbed the 2014 Canadian Green Car Award for best Electric Vehicle.¹ But it's more than just a planet-friendly way to get around. With seating for five and a lower total cost of ownership, Nissan LEAF[®] makes driving electric an everyday reality. Plus loads of fun – because 1.9 Le/100 km (153 MPGe) city² and freedom from the pump come with amazing acceleration and a corner-hugging ride. Did we mention all the great perks, too?

- never buy gas again
- carpool lane access³ (select provinces)
- no more oil changes
- designated EV parking³

Discover how the innovative Nissan LEAF[®] fits into your day – no matter what life you lead.

Go to www.nissan.ca/dayinaleaf

Vehicles in brochure are shown without front and rear splash guards, which are standard equipment on all Nissan LEAF[®] models.

¹2014 Nissan LEAF[®] won the Electric Vehicle category in the Green Living Show's Canadian Green Car Awards program. Selections are made by a panel of leading Canadian automotive journalists. ²2015 Fuel Economy Estimates. Based on Natural Resources Canada formula of 8.9 kW/hour equal to one litre of gasoline energy. EPA rated the Nissan LEAF[®] equivalent to 1.9 Le/100 km or 153 MPGe (Imperial) measured as gasoline fuel efficiency in city driving. Actual mileage may vary with driving conditions – use for comparison only. 2015 EPA range of up to 135 kilometres. ³The additional perks referenced are for informational purposes only. These additional perks are not within Nissan's control and may not be available in all provinces and/or locations and are subject to change without notice. Interested parties should confirm the accuracy of the information before relying on it to make a purchase.

Nissan LEAF[®] SL shown in Pearl White.

CHARGE. DRIVE. REPEAT. IT'S THAT EASY.

On average, most people drive less than 42 kilometres a day.¹ Nissan LEAF[®] gets you nearly 3 times that on a single charge.²

Just plug it in to charge overnight and in the morning you'll be ready to go, with tools to help you manage your range along the way. Of course, driving at moderate, more constant speeds is always a good idea. You can even switch to Eco mode to improve your range up to 10% in certain conditions. With Nissan LEAF[®], the little things can make a big difference. And for added peace of mind, Nissan provides three years of complimentary roadside assistance with every Nissan LEAF.³

“Fill up” at home. Faster than ever.

With the 240-volt home charging dock, Nissan LEAF[®] charges in as little as 5 hours.⁴ All you have to do is plug it in, like you would your laptop or cell phone. To take advantage of off-peak rates, you can set a charging timer right on the dash.

Late availability for MorningSky Blue.

Talk to your Nissan LEAF[®] – it's listening.

CARWINGS[®] is a telematics system that lets you connect with your Nissan LEAF[®] using web-enabled devices, like your smartphone, iPad[®] or computer. With the available CARWINGS[®] app, you can connect to your Nissan LEAF[®] to start and stop charging, check your charging status, access climate control, see your driving range and get alerts and updates.⁵ It's a great way to keep tabs on your Nissan LEAF[®] and take care of some functions remotely.⁵ In addition to all that you can do from your phone, log into your CARWINGS[®] account online to learn your driving history, plan your route, and even see how your driving efficiency ranks among other Nissan LEAF[®] owners.⁵

eco drive indicator

power meter

trip computer

estimated range

The tools to go the distance.

There are plenty of tools right on your dashboard to help you get the most out of every charge. You'll always see your battery level, and how many kilometres remain in your driving range.⁷ Driving efficiently? You won't have to guess. The power meter shows how much power you're using – and generating, thanks to Nissan LEAF[®]'s regenerative braking system that captures the energy created while you coast or brake and recycles it back into the power supply. And if you're doing really well, you'll grow a virtual forest on the Eco drive indicator.

Charge on the go. In more places than ever.

With approximately 2,500 public charging stations that will be in place by 2015, you can head out in confidence. You can even plan trips in your Nissan LEAF[®] based on the availability of charging stations near your destination. Visit <http://www.plugndrive.ca/support> to find a charging station near you.⁸

¹Natural Resources Canada, 2010. ²2015 EPA range of up to 135 kilometres. Actual range may vary. Use for comparison only. ³See your Nissan dealer and read the Roadside Assistance section of your Warranty Information Booklet for complete details and eligibility requirements. ⁴Approximate time, with available 240-V home charging dock, purchased separately. ⁵CARWINGS[®] requires compatible 2G GSM/GPRS cellular network provided by independent cellular companies not within Nissan's control. 2G cellular network not available in all areas and/or available at all times. In areas with 2G network coverage, signal strength may vary and/or not be available at all times. Cellular technology is evolving, and changes to cellular networks may affect future CARWINGS[®] functionality. Should a cellular provider terminate/further restrict 2G network service, CARWINGS[®] service may be suspended or terminated without notice or liability to Nissan and/or its agents. Like other devices that rely on 2G network coverage, once the 2G network is terminated, CARWINGS[®] will not function unless equipment replacements, upgrades, or alternative 2G network coverage are available at that time, which Nissan cannot guarantee. Nissan is not responsible for associated costs that may be required for continued CARWINGS[®] operation due to cellular network termination (including equipment upgrades, if available, or roaming charges on alternative networks). Certain remote functions require compatible smartphone, not included with vehicle. CARWINGS[®] subscription service requires owner consent to activate. Subscription service for first 36 months included in vehicle price. Subscription available for purchase thereafter. Standard text rates and/or data usage may apply to CARWINGS[®] communications received by email or SMS/text message. Terms and conditions of Subscription Agreement apply. ⁶The additional perks referenced are for informational purposes only. These additional perks are not within Nissan's control and may not be available in all provinces and/or locations and are subject to change without notice. Interested parties should confirm the accuracy of the information before relying on it to make a purchase. ⁷Mileage estimates only. Range will vary depending upon driving/charging habits, speed, conditions, weather, temperatures, and battery age. ⁸Availability/accessibility of charging stations is not guaranteed. ⁹Factory-installed option. Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. ¹⁰For tailpipe emissions. iPad[®] is a registered trademark of Apple, Inc. All rights reserved. iPad[®] not included.

A DAY IN THE LIFE OF NISSAN LEAF[®]

Wake up fully charged and start off comfy with available remote climate control (a great way to help extend range). Nissan LEAF[®] is ready. Let's go!

Whoosh! Nissan LEAF[®] has highway speeds and 100% available torque right off the line.

Get places faster with single-occupancy access to the carpool lane. Your reward for driving electric (select provinces only).⁹

Thanks to regenerative brakes, Nissan LEAF[®] charges anytime you slow down. Stop-and-go traffic is your new best friend.

Lots of errands and little time? Good thing you can use your Zero Emissions Menu to get the most economical route, see driving range, and get real-time traffic updates.^{7,9}

Just another day of driving electric. No gas, no emissions.¹⁰ Then charge at home during off-peak hours while you sleep.

LOOKS GOOD, SOUNDS GOOD, FEELS GOOD.

Inside Nissan LEAF® you'll find all the right comforts and conveniences, with five seats, plenty of smart storage throughout, and USB connectivity.¹ Plus all the available high-tech features you'd expect from a car this innovative, like a Nissan Navigation System² and Bose® audio system. Of course, we didn't forget the essentials, like Bluetooth,³ SiriusXM® Satellite Radio,⁴ a RearView Monitor,⁵ heated front and rear seats, and six airbags to help keep you safe.⁶ Top it off with sleek, black leather-appointed seats exclusive to the SL trim. All this, and 100% electric, too.

U.S. instrumentation shown.

Energy-efficient Bose® Audio System

Bose® came on board with their own energy-efficient solution designed just for Nissan LEAF.⁸ An available ultra-lightweight, compact, energy-saving speaker system with the concert-hall sound Bose® is known for. Thank you, Bose® engineers.

Around View® Monitor⁷

Thanks to this handy available feature, four cameras give you a virtual 360° bird's-eye view of your Nissan LEAF,⁸ with selectable split-screen close-ups of the front, rear, and curbside views. Now you can snag that space right in front – exactly where Nissan LEAF® should be.

¹Driving is serious business and requires your full attention. Do not operate any devices connected to the USB or auxiliary audio input jack while driving. ²Factory-installed option. Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. ³Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details. Bluetooth® word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under licence. ⁴XM® and SiriusXM® Satellite Radio is available in the 10 Canadian provinces and the 48 contiguous United States. Basic monthly subscription required and sold separately after trial period. NavTraffic®/SiriusXM® Traffic is available in select North American markets. In Canada, at time of printing, incident and flow data is available for 12 metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Toronto, Ottawa, Montreal, Quebec City, Hamilton, St. Catharines, Kitchener, Guelph, and London). Subscription subject to customer agreement at siriusxm.ca/terms. All fees and programming subject to change. © 2014 Sirius XM Canada Inc. The Sirius®, XM®, and SiriusXM® names and all related marks and logos are trademarks of Sirius XM Radio Inc. All other trademarks are the property of their respective owners. ⁵Parking aid/convenience feature. Cannot completely eliminate blind spots or warn of moving objects. May not detect every object. Always check surroundings before moving vehicle. Not a substitute for proper backing procedures. Always turn to check what is behind you before backing up. ⁶Airbags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, in addition to any other requirement of applicable law, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Airbags will only inflate in certain accidents; see your Owner's Manual for more details. ⁷Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings before moving vehicle. ⁸Virtual composite 360° view. Bose® is a registered trademark of The Bose Corporation.

EFFICIENCY, CELEBRATED.

Packing power.

Nissan LEAF®'s compact lithium-ion battery is twice as powerful and half the weight of nickel-metal hydride batteries used in traditional hybrid cars. Its arrangement in the floor of the vehicle means interior roominess and plenty of cargo space.¹

Generate energy while you drive.

Every time you slow down, the regenerative braking system stores that energy in the Nissan LEAF® battery. That means your car charges anytime you brake.

Never be a drag.

Nissan LEAF® is aerodynamically designed to keep wind resistance down and efficiency up. A drag coefficient of 0.28 is something to celebrate. Low-resistance rolling tires also come standard, and reduce the vehicle's energy output.

It's easy to see the bright side.

Available LED low-beam headlights use half as much energy as traditional headlights. Plus, they're aerodynamically designed to maximize efficiency.

How does a solar-powered radio sound?

Like music to your ears. The photovoltaic solar-panel spoiler (SL trim only) converts sunlight into energy. It helps power your A/C, your 12-volt outlet and your stereo.

BATTERY LIMITED WARRANTY²

160,000 KILOMETRES 8 YEARS

The comprehensive Nissan LEAF® lithium-ion battery limited warranty also protects against capacity loss below 9 bars of capacity (out of 12) as shown on the LEAF®'s capacity gauge for a period of 5 years/100,000 kilometres (whichever occurs first).²

Late availability for MorningSky Blue.

¹Cargo and load capacity limited by weight and distribution. Always secure all cargo. ²The limited Nissan LEAF® lithium-ion battery warranty includes coverage for defects in materials or workmanship for 8 years/160,000 kilometres (whichever occurs first) as well as protection against capacity loss below 9 bars of capacity (out of 12) as shown on the LEAF®'s capacity gauge for a period of 5 years/100,000 kilometres (whichever occurs first).

NISSAN SAFETY SHIELD® PHILOSOPHY

SURROUND YOURSELF WITH CONFIDENCE.

Wouldn't it be cool if you had the confidence you need for every part of your drive? The Nissan Safety Shield® is a comprehensive approach to safety that guides the engineering and development of every vehicle we make. The features described here are just some of many on your Nissan, helping to protect you and yours by focusing on three key areas: keeping an eye on your vehicle's systems and the surroundings, assisting in handling unexpected situations, and helping to keep you safe in the unfortunate event of an accident.

6 Standard Airbags. When a collision is unavoidable, Nissan's Zone Body construction helps absorb the impact while the advanced seat belt and airbag systems help protect passengers.¹

snug4kids® Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissans. The result: An industry first, The Snug Kids® Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at Nissan.ca/owners/en

Tire Pressure Monitoring System. When your tire pressure is low, an icon illuminates on your dash to let you know. When filling your tires, the Easy-Fill Tire Alert gives you a friendly beep of the horn when you've reached the right pressure.^{2,3}

Vehicle Dynamic Control (VDC). Also known as stability control, VDC monitors your steering and braking to help you maintain your steered path under certain conditions by reducing electric motor output and/or applying brake pressure to specific wheels.⁴

Electronic Brake force Distribution/Brake Assist. EBD is designed to send extra force to the rear brakes when there's additional weight in the back. If you need to slam on the brakes, Brake Assist detects how hard you're braking, and if it senses you are in an emergency, it will automatically help to apply maximum braking force.

SAFETY SHIELD®

- Licence Plate Protector
- Zero Emission Body Design Graphics
- And More

Nissan LEAF[®] SL shown in MorningSky Blue (late availability) with Nose Mask, Zero Emission Body Design Graphics and Splash Guards.

100% ELECTRIC NISSAN LEAF[®] FAQs

Does the Nissan LEAF[®] use gasoline?

No, never. Nissan LEAF[®] runs off of 100% electric battery power, no gas needed. In fact, it doesn't even have a tailpipe.

Will the price include the battery pack? Or will there be an option to rent/lease the battery pack?

The total cost of the vehicle includes the battery pack. Both lease and purchase options are available for the vehicle, but not for just the battery pack.

Can I charge if I'm not at home?

Yes. Across the country you'll find a public infrastructure of charging stations. Visit <http://www.plugndrive.ca/support> to find a station near you.⁵

Will there be more public charging stations in the future?

The public charging network is expanding every day, with 2,500 access stations expected to be in place by 2015. When DC quick-charging stations become available, they will be capable of giving you an 80% charge in just 30 minutes.⁵

Am I required to buy the home charging station when I purchase Nissan LEAF[®]?

No. However, the home charging dock is recommended.

How long will it take to charge my Nissan LEAF[®] at home?

With the 240-volt home charging dock, your 2015 Nissan LEAF[®] will be fully charged in as little as 5 hours.⁶

Will charging my Nissan LEAF[®] increase my electricity bill?

The average driver should see only a moderate bump in their monthly electricity bill – and if you charge during off-peak hours, even less – though the savings in gas money should more than make up for it.

Can I drive Nissan LEAF[®] on the freeway?

Of course! Nissan LEAF[®] is freeway-ready, with instant torque and freeway-capable speeds. Even better, Nissan LEAF[®] qualifies for a single-occupancy HOV access in select provinces, so you can use the carpool lane any time you want.⁷

What happens if I run out of charge?

Nissan LEAF[®] comes with helpful tools that keep you aware of your battery level at all times. However, for added peace of mind, every Nissan LEAF[®] comes with three years of complimentary roadside assistance.⁸

Does the battery come with a warranty?

Yes, Nissan LEAF[®]'s advanced battery comes with an 8-year/160,000 km limited warranty.⁹

Does Nissan LEAF[®] have the same safety features as a conventional car?

Yes. Nissan LEAF[®] comes with a comprehensive list of safety equipment, including six standard airbags¹⁰ and advanced safety features like Vehicle Dynamic Control (VDC)¹¹ and Traction Control System (TCS).

These rebates, incentives and additional perks are not within Nissan's control and are subject to change without notice. Interested parties should confirm the accuracy of the information before relying on it to make a purchase. HOV access varies by province. Please consult provincial laws for eligibility. ⁸See your Nissan dealer and read the Roadside Assistance section of your Warranty Information Booklet for complete details and eligibility requirements. ⁹The limited Nissan LEAF[®] lithium-ion battery warranty includes coverage for defects in materials or workmanship for 8 years/160,000 km (whichever occurs first) as well as protection against capacity loss below 9 bars of capacity (out of 12) as shown on the LEAF's capacity gauge for a period of 5 years/100,000 km (whichever occurs first). ¹⁰Airbags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. Also, in addition to any other requirement of applicable law, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Airbags will only inflate in certain accidents; see your Owner's Manual for more details. ¹¹VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely. Facebook[®] is a registered trademark of Facebook, Inc. Twitter[®] is a registered trademark of Twitter, Inc. YouTube[®] is a registered trademark of Google Inc.
